

The diagram illustrates the CSS box model with four nested rectangular layers. The innermost layer is a dark blue rectangle labeled 'content' with dimensions 'width: 200px' and 'height: 100px'. Surrounding this is a light blue layer representing padding. The next layer is a light green border, and the outermost layer is a light orange margin. Each layer is labeled with its respective CSS property and a description of its visibility and function.

content  
width: 200px  
height: 100px

padding: 20px (transparente, afasta o conteúdo do bordo)

border: 5px (visível, desenhado à volta do padding)

margin: 10px (transparente, afasta do progenitor/irmãos)
